

Get deeper insights.
Make smarter decisions.

JOIN US AT DATA4DECISIONS.

When it comes to big data, many organizations' biggest challenge lies in how to convert data into actionable insights—and many businesses are not yet up to the challenge. That's where Data4Decisions comes in.

At Data4Decisions, you'll:

- **LEARN** about pivotal topics like data security, monetization, database management, workforce staffing and more. Rather than keeping you in your industry silo, [conference tracks](#) provide you with diverse solutions to shared data challenges.
- **LEVERAGE** insights from other industries—government, education, retail, healthcare, finance, insurance, technology, energy and more!
- **CONNECT** with other [high-level business leaders](#)—and learn how they're addressing similar challenges in their industries and organizations.
- **MEET** face-to-face with technical experts and solution providers who'll help you address your company's specific needs.

#1 DATA HOT SPOT: RALEIGH

As the nation's epicenter for data analytics, Raleigh is the ideal location for a high-impact data event like Data4Decisions. Raleigh and the surrounding Research Triangle region lead the U.S. when it comes to data expertise, drawing hundreds of leading data science companies, thousands of tech experts and data professionals, dozens of corporate headquarters across a range of industries and world-class universities at the forefront of research. And that's saying nothing about the new restaurants, cultural spaces and activities blossoming in this Southern metropolis...

march 22-24, 2016 | raleigh, n.c.
